EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Garvey (Reg. No. 28,607) on November 5, 2004.

The application has been amended as follows:

Please cancel claims 15, 16, and 18-24.

Reasons for Allowance

2. Claims 1-5, 8-12, and 17 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is Filepp et al. (U.S. Patent No. 5,758,072). Filepp discloses a business support system that provides a gateway for converting information into a desired format. However, Filepp does not disclose or suggest the achievement of this conversion utilizing the combination of a data management means/unit for managing the service information converted into the predetermined form by one of the data form conversion means/units, determining means/unit for determining whether or not the service information is updated by accessing the corresponding external processing system, accessing means/unit for accessing the corresponding external

processing system to send the service information request data converted into the form that can be processed by the corresponding external processing system to obtain the service information with respect to the service information request data, when the determining means/unit determines that the service information is not updated, wherein the service information obtained from the corresponding external processing system is converted into the predetermined form by the one of the data form conversion means/units, managed by the data management means/units, and provided to the terminal apparatus by the service information providing means/units. This combination of limitations is recited in claims 1-5, 8-12, and 17; therefore, claims 1-5, 8-12, and 17 are deemed to be allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Dudley ("Marketing Telecommunications Equipment Using the World Wide Web")
-- Discloses details of Fujitsu's private branch exchange product, F9600-FIPN, which is used to disseminate targeted marketing materials.
